

ALLEY KYLE S. REGALA

GoHighLevel Specialist | Web Developer

Quezon Province, Philippines (Open to Remote) | +63 991 953 9726 | Alleykyle2@gmail.com
Portfolio: regala-alleykyle.vercel.app | LinkedIn: linkedin.com/in/regala-alley-kyle-197822421

PROFESSIONAL SUMMARY

GoHighLevel specialist and web developer with a Bachelor of Information Technology. I build lead capture forms, sales pipelines, and client onboarding automations for service businesses, and I have built Django-based CRM web apps for dental and gym businesses. Strong in data accuracy, documentation, and workflow testing. Seeking a remote GoHighLevel role.

TECHNICAL SKILLS

CRM & Automation: GoHighLevel (Workflows, Pipelines, Forms, Sub-Accounts), CRM Management, Workflow Testing

Web Development: Django, Python, HTML, CSS, JavaScript, Chart.js

Tools: Git, GitHub, Visual Studio Code, Microsoft Office (Excel, Word, PowerPoint), Canva

Other: Data Management, Data Encoding, Record Management, Dashboard Development, System Testing

GOHIGHLEVEL PROJECTS

Demo sub-account: Bright Smile Dental

Dental Lead Capture & Pipeline | GoHighLevel, Forms, Pipelines, Sub-Accounts

- Built a “Free Consultation Booking” form that captures name, email, phone, and preferred contact time.
- Set up a four-stage “Dental Leads” pipeline (New Lead, Contacted, Booked, Completed) so every lead can be tracked from first inquiry to completed visit.
- Configured a dedicated sub-account with Eastern time settings for a US-based client setup.

Client Onboarding Automation | GoHighLevel, Workflows, Forms

- Designed an automated onboarding workflow: welcome email, intake form, follow-up task assignment, and team notifications.
- Gave new clients a consistent onboarding experience with no manual follow-up needed.

WEB DEVELOPMENT PROJECTS

Bright Smile Dental CRM | Django, Python, JavaScript

- Built a dental clinic CRM for managing patients, appointments, conversations, workflows, reports, and settings.

FitCore Gym CRM | Django, Python, JavaScript, Chart.js

- Built a gym management CRM for tracking members, trainers, memberships, payments, attendance, and class schedules, with Chart.js reports.

SmartFilex | Django, HTML, CSS, JavaScript, Git/GitHub

2025 – 2026

- Developed a web application for online issuance and management of eligibility certification records for barangay officials.
- Implemented record management, a dashboard, and file categorization features, using Git/GitHub for version control.

PROFESSIONAL EXPERIENCE

Encoder / Web Developer | Department of the Interior and Local Government

Jan 2026 – May 2026

- Encoded and cleaned administrative records, keeping data accurate and consistent.
- Assisted with document listing, assessment, computation, and ranking based on assigned criteria.
- Used Microsoft Excel for data processing, organization, and documentation.
- Applied programming and web development knowledge to support digital tasks.
- Maintained meeting documentation, including attendance records.

EDUCATION

Bachelor of Information Technology Dalubhasaan ng Lungsod ng Lucena, Lucena City	2022 – 2026
Senior High School Manuel S. Enverga University Foundation, Lucena City	2018 – 2020
